## PETITION TO CREATE THE WINIFRED HERD DISTRICT

Robert R. Bold; Annette Bold; Spencer Bold; X Hanging Diamond Ranch, Inc.; Edward B. Butcher; Butcher's Rolling Hills Ranch, LLP; and Rolling Hills Gumbo Ranch, Inc.; (collectively referred to as petitioners) own land and possess land as lessees in the proposed herd district identified below and would like the Fergus County Board of County Commissioners to create a herd district as set forth below. To create the district, the board needs to receive a petition executed by owners or possessors of 55% or more of the land lying within the proposed district and 25% or more of the land in the district must be in actual cultivation. As set forth below, this requirement has been met. The herd district must contain 12 square miles or more, lying not less than 1 mile in width, outside of incorporated cities. This requirement has been met. When forming the herd district the entire holding of any owner or lessee must be included unless the owner or lessee consents that less than the owner or lessee's entire contiguous holdings be included in the petition. Edward B. Butcher & Rolling Hills Gumbo Ranch, Inc., consent that less than their entire contiguous holdings be included in this petition. The petition must designate the months of the year when the herd district is effective. Petitioners designate that the proposed herd district is effective every month of the year. The petition must provide the outside boundaries and description of the proposed district. The boundaries of the proposed herd district are identified in the attached map. After the board receives the petition, it must verify that 55% or more of the owners or possessors executed the petition to create the district and 25% or more of the land in the proposed district is under cultivation. After the board verifies that 55% or more of the owners or possessors executed the petition to create the district and that 25% or more of the land in the proposed district is under cultivation, the board must set a public hearing date for hearing protests and verifying the petition signatures and shall give not less than 20 days' notice of the hearing by three publications in a newspaper of general circulation in the count of the proposed district. At the hearing held pursuant to the notices, the county commissioners shall examine the petition and shall cause a map to be made in order to determine the shape and regularity of the boundaries of the proposed district. The commissioners may then establish the district, but the district shall be established only in a manner that the district will be reasonably regular and symmetrical in shape or practicable in relation to the geographical features of the district; however, it is not required that the boundaries of the district follow section lines to meet the requirement of reasonably regular and symmetrical boundaries. Should it appear to the county commissioners after the hearing that the signatures attached to the petition were genuine, they shall immediately declare the herd district created and established. After making the declaration, the county commissioners shall give notice by four weekly publications in a newspaper nearest the district of the creation of the district, also stating the period that the district will be in effect. A district may not be in effect until 30 days have expired after the order. If the signature of a lessee appears on the petition creating the herd district, the owner or owners of the land may either appear in person or by agent and enter their protest and the board of county commissioners shall remove the name of the lessee from the petition; however, a person may not withdraw the person's name after the hour set for hearing the protest. After the hearing, the board must create the district unless one of the criteria to create the district has not been met. Below is the text of the Montana Code which governs the creation of herd districts.

"81-4-301. Herd districts -- creation, size, and location. (1) Herd districts may be created in any county in the state of Montana:

(a) upon petition of owners or possessors of 55% of the land in the district and providing that 25% or more of the land in the district is in actual cultivation or being used for residential purposes; or

(b) upon petition of owners or possessors of 75% of the land in the district.

(2) Herd districts must contain 12 square miles or more, lying not less than 1 mile in width, outside of the incorporated cities, except that herd districts may be created containing not less than 6 or more than 54 square miles, lying not less than 2 miles in width, when the territory joins and is contiguous with the boundaries of a city having a population of 10,000 or more and the territory to be created in a herd district has a suburban population of not less than 200 people.

(3) In formation of a herd district the entire holding of any owner or lessee must be included unless the owner or lessee consents that less than the owner or lessee's entire contiguous holdings be included in the petition.

(4) The petition must designate the months of the year when the herd district is effective, and upon presentation and filing of the petition, properly signed, giving the outside boundaries and description of the proposed district and the post-office address of the petition signers, with the clerk and recorder in the county in which the district is being created, the county commissioners of that county, upon receipt of the petition, shall set a date for hearing protests and verifying the petition signatures and shall give not less than 20 days' notice of the hearing by three publications in a newspaper of general circulation in the county of the proposed district. At the hearing held pursuant to the notices, the county commissioners shall examine the petition and shall cause a map to be made in order to determine the shape and regularity of the boundaries of the proposed district. The commissioners may then establish the district, but the district shall be established only in a manner that the district will be reasonably regular and symmetrical in shape or practicable in relation to the geographical features of the district. It is not required that the boundaries of a district follow section lines to meet the requirement of reasonably regular and symmetrical boundaries.

(5) Should it appear to the county commissioners after the hearing that the signatures attached to the petition were genuine, they shall immediately declare the herd district created and established. After making the declaration, the county commissioners shall give notice by four weekly publications in a newspaper nearest the district of the creation of the district, also stating the period that the district will be in effect. A district may not be in effect until 30 days have expired after the order.

(6) If the signature of lessee appears on the petition creating or abolishing any herd district, the owner or owners of the land may appear either in person or by agent and enter their protest and the board of county commissioners shall remove the name of the lessee from the petition, and a person may not withdraw the person's name after the hour set for hearing the protest."

The following pages contain a list of land for the proposed district including the land description; identification of the land owner; a map of the proposed district; the post-office address of the petition signers; the percentile of ownership of the proposed district; and percentage of cultivated property located within the district.

Wherefore, the following petitioners respectfully request that the Fergus County Commissioners create the Winifred Herd District as requested herein.
